Whirlpool Gold® Series Dishwasher with Stainless Steel Tub

4.6 / 5

Write a review

BASE MSRP

$649.00

This dishwasher is as beautiful on the inside as it is on the outside. A stainless steel tall tub adds a sleek, smooth texture to the interior and provides higher heat retention to further improve drying performance. A virtually flush door with a shorter 2-1/2" console adds a modern look to your contemporary kitchen and is easy to clean. Not only does this model fit seamlessly in your kitchen, it'll also fit your lifestyle. From our quietest line of dishwashers, this model features a Quiet Partner™ IV sound package, the highest level of quiet operation and sound-reducing insulation.

FEATURES

Top Features

Sensor Cycle

From baked-on casserole dishes to drinking glasses, the Sensor cycle has you covered. It automatically selects the right wash and dry settings for your load by using two separate sensors to measure temperature, soil level and load size once during the prewash and once during the wash cycle. It cleans tough soils 35% better[1] while using just the right amount of time, energy and water, helping you have more time to do what you love.

AnyWare™ Plus Silverware Basket

Our improved AnyWare™ Plus silverware basket now holds up to 12 more pieces of silverware for maximum flexibility and is designed to clean better. Place the silverware basket in the bottom rack, on the front of the rack, or use it in the door for 100% usable rack space. Its improved design also allows you to access small silverware and easily place the basket on the counter for unloading.

Resource - Efficient Wash System

This dishwasher's resource-efficient wash system cleans a full load of dishes using nearly 1/2 the water and energy[5]. Whirlpool Brand's improved motor and wash system optimizes cleaning for better cleaning results versus the previous wash system and provides our quietest line of dishwashers ever.

Additional Features

Quiet Partner™ IV Sound Package

Whirlpool brand dishwashers offer many levels of quiet operation with this system of sound-reducing insulation.

No One Has Fewer Repairs 17 Years In A Row

Whirlpool® dishwashers are designed to endure repeated use and to deliver years of reliable performance. No one has fewer dishwasher repairs 17 years in a row.

ENERGY STAR® Qualified

Whirlpool® dishwashers exceed government efficiency standards, so they are better for the environment and your wallet.

CEE Tier 1[2] qualified

Select dishwashers exceed federal minimum energy efficiency standard by 15% to earn an eco-friendly CEE Tier 1[2] qualification. These advanced water and energy savings may qualify for rebates, contact your local utility company for program availability.

Eco Wash Cycle

Our most efficient dishwasher cycle helps minimize energy and water usage while cleaning dishes[3]. This eco-friendly cycle delivers great cleaning performance and is the perfect cycle for cleaning lightly to moderately soiled dishes.

Eco Dry Option

The industry-exclusive Eco Dry option is the most efficient drying option on our dishwashers. Perfect for those who want to save energy, its shorter heating time uses 70% less energy compared to using Heated Dry[4].

Our Quietest Line Of Dishwashers Ever

Our quietest line of dishwashers ever offers many levels of quiet operation. Equipped with our Quiet Partner™ sound packages and sound-reducing insulation, these models minimize noise, so you can run the dishwasher without it interfering with your daily routine.

Plastic Cup Shelf

Allows you to stack two levels of coffee mugs or secure delicate glassware during the wash cycle when used as a stemware holder.

Light Item Clips

Light item clips secure lightweight items during the wash cycle and help prevent items from falling out of the basket. They also stop cups and other small containers from flipping over and filling with water.

Tall Tub Design

This model's Tall Tub design allows you to load tall and odd-shaped items in both racks. An additional 3" of interior space compared to standard tub models makes room for extra-large items in the lower rack and plates or sports bottles in the upper rack.

Triple Filtration System

Resource efficient dishwashers feature a triple filtration system to remove food particles and other soils. This highly effective filtration system helps the wash system provide outstanding cleaning while using less water and energy.

Auto Soil Sensor

The Auto soil sensor optimizes every cycle for reliable cleaning results. This sensor measures water clarity to determine how dirty dishes are, then adjusts the cycle accordingly. This sensor measures the soils in the water and will add extra water and even temperature to ensure clean dishes. It automatically recalibrates the loadafter every 250 wash cycles for maximum performance.

NSF Certified Sani Rinse Option

Make sure your dishes are reliably clean with the NSF Certified Sani Rinse option. Using a high temperature rinse, this option eliminates 99.999% of food soil bacteria, as certified by NSF International.

1-Hour Wash Cycle

The 1-Hour Wash option will get dishes clean in about half the time. This hour-long cycle lets you thoroughly clean lightly soiled dishes when you are in a rush.

High Temperature Wash System

Choose this option when additional cleaning of items like baby bottles glassware or dishes is required.
